COMPUTER SCIENCE UNDERGRADUATE · FULL-STACK WEB DEVELOPER · AI & DATA ENTHUSIAST

PROFESSIONAL PROFILE

7th-semester BS Computer Science student at the University of Gujrat (CGPA 3.34/4.00; 6th semester 3.54/4.00). Multidisciplinary profile spanning full-stack web development, frontend engineering, data analytics, AI/ML, technical content writing, teaching and digital marketing — built through internships, academic projects and professional training.

Objective: A technology-focused career in software development, data analytics, AI/ML and technical communication, with international higher education and work opportunities.

EDUCATION

BS Computer Science *7th Semester*
University of Gujrat, Pakistan · Expected Jul 2027 · CGPA 3.34/4.00 (6th sem: 3.54/4.00)

Intermediate (I.Sc.)
Superior College, Pakistan

Secondary Education (Matriculation)
Government Higher Secondary School, Garibpura, Gujrat, Pakistan
Science Group (Biology, English Medium)

Specialization & Expertise

Academic Specializations & Core Competencies:

Building upon a strong foundation in computer science, my academic and practical journey spans diverse technology domains. In Web Applications Development, I specialize in designing and engineering responsive, high-performance front-end and full-stack solutions using modern frameworks like React, Next.js, and Node.js. Concurrently, my exploration into Artificial Intelligence and Machine Learning equips me to understand intelligent system architectures, data processing pipelines, and computer vision foundations. Furthermore, my multi-disciplinary expertise extends to Data Science & Analytics, where I leverage statistical modeling and data-driven insights, alongside Management & Marketing principles, enabling me to bridge technical execution with strategic business growth and digital communication.

SKILLS

MICROSOFT OFFICE & DATA

MS Word · MS Excel (formulas, data entry) · PowerPoint presentations · PDF documentation · Data entry & records

PROGRAMMING

JavaScript · TypeScript · Python · Java · C++ · Go · PHP

FRONTEND

HTML5 · CSS3 · Bootstrap · Tailwind CSS · React · jQuery · AJAX · JSON

BACKEND / FULL STACK

Node.js · Express.js · Laravel · PHP · REST APIs

DATABASES & TOOLS

MySQL · MongoDB · Mongoose · Git · GitHub · VS Code · XAMPP · npm

DATA / AI

Data analytics · Statistics · ML & Deep Learning fundamentals · Computer Vision

CERTIFICATIONS

- Google Advanced Data Analytics — Coursera
- Fundamentals of Project Management — University of California irvine
- Strategic Leadership & Management — University of Illinois urbana
- Stakeholder Management — Google
- Foundations of Management — University of California irvine
- Advanced Web Development — NAVTTC (3 months)
- Digital Marketing — Alison
- TEFL — English Teaching Certificate

■ WORK EXPERIENCE

Full-Stack JavaScript Intern

Ongoing

ZeroIntern — Remote

- Full-stack development with React, Node.js/Express and databases; building an e-commerce platform with product, inventory, order and administration modules.

AI Technical Content Writing Intern

Ongoing · 6-month

GAO Tek Inc.

- AI/technology research, content structuring, technical writing and professional communication.

Full-Stack Development Intern

Sep 22 – Oct 22, 2026

Decode Labs

- Software development workflow, web technologies and project-based learning.

Frontend Development Intern

Oct 1 – Nov 1, 2026

CodeAlpha

- Responsive interfaces, modern web technologies and practical project work.

Summer Intern

Upcoming

Devixo Solutions

- Offer accepted; preparing for professional project-based experience.

Teaching Experience

3 Years

Classroom & Online · TEFL Certified

- Classroom and online instruction, lesson support, student guidance and English-language teaching for international learners.

Full-Stack Web Developer & Freelancer

3 years

Independent Practice & Academic Projects — 3 Years Experience

Engineered responsive, dynamic web applications and scalable full-stack solutions through freelance contracts, independent client projects, and rigorous university coursework.

Leveraged modern web technologies including React, Next.js, Node.js, Express, JavaScript, TypeScript, and PHP/Laravel along with robust database integrations (SQL, MongoDB).

Managed end-to-end development lifecycles, translating complex UI/UX designs into high-performance user interfaces and maintaining clean, efficient backend codebases.

■ SELECTED PROJECTS

StyleVerse — Multi-Vendor Fashion E-Commerce

Laravel · PHP

- Product management, inventory, coupons, returns, order workflows, analytics, customer functionality and payment integrations.

ZeroIntern E-Commerce Platform

React · Node.js · Express

- Full-stack online store with payments, inventory, orders and administration.

Personal Portfolio Website

Responsive Web

- Profile, skills, projects, certificates and contact: sa23515193-hash.github.io/sawaira-ijaz-portfolio/

Professional Web Development Projects

■ LANGUAGES

Urdu — Native / Fluent

English — Professional working proficiency

■ RESEARCH & CAREER INTERESTS

AI & Machine Learning · Deep Learning, Computer Vision & Image Processing · Data Science & Applied Statistics · Full-Stack Web Development · Technical Content Writing · International academic collaboration

■ REFERENCES

Muhammad Abdullah — Professor

- Responsive websites, CRUD applications, e-commerce interfaces and modern frontend work.

Janat Fatima — Professor

Contact details available on request

I am writing to express my interest in internship and entry-level opportunities in software development, data analytics or technical communication. I am a 7th-semester BS Computer Science student at the University of Gujrat (CGPA 3.34/4.00) with a multidisciplinary background spanning full-stack web development, AI/ML, data analytics, technical content writing and teaching.

Through internships at ZeroIntern (full-stack JavaScript), GAO Tek Inc. (AI technical content writing), Decode Labs and CodeAlpha, I have gained practical experience with React, Node.js/Express, Laravel, PHP, MySQL and MongoDB — including building an e-commerce platform with product, inventory, order and administration functionality. My Google Advanced Data Analytics training and strong Microsoft Office skills (Excel, Word, PowerPoint, data entry and PDF documentation) further support data-driven and documentation-heavy roles.

Alongside technical work, three years of teaching experience (TEFL certified) have strengthened my communication, presentation and stakeholder-management skills. I am a fast learner, adaptable and eager to contribute to a professional team while pursuing continuous growth.

I would welcome the opportunity to discuss how my skills and enthusiasm can contribute to your organization.
